### Corporate Colors

Standard logo colors always remain the same.

### Color Coordinate

Take elements of logo and coordinate threads to either garment, trim, collar or stripes.

### Tonal Color

Slightly lighter or darker thread than garment.

### Tone-On-Tone

Match thread to garment color.

## The Difference is in the Details

PEI's new embroidery machines increase the capacity for logos produced by sustaining a higher stitch-per-minute production rate. The new machines are automated to connect directly with the network so logos can now be accessed via scanner and bar code.

In-house embroidery services include a retail fold-in customized poly bag, along with Callaway retail hang tag and embellished tissue paper.

## Tradition Powered by Innovation

Our focus on advanced technologies has produced **7 fabric innovations** optimizing your comfort and range of motion.

- 1** **OPTI-DRI™**  
Transfers moisture away from the body to keep you cool and dry
- 2** **STRETCH**  
Fabrics that move with you to increase your range of motion
- 3** **VENTILATED**  
Allows air to flow freely through the fabric to keep you comfortable
- 4** **WIND & WATER RESISTANT**  
Resists wind and water to protect you against inclement weather
- 5** **FLEX**  
Active waistband and stretch fabrics ensure maximum range of motion and unrestricted movement
- 6** **UV BLOCK**  
Keeps skin safe from the sun's harmful rays
- 7** **THERMAL**  
Provides an extra layer of thermal comfort

## Skin Cancer Foundation

For over 40 years, the Skin Cancer Foundation has been tasked with educating the public about the risks of sun exposure.

The foundation encourages everyone to take a proactive approach in fighting skin cancer via prevention, by applying daily sun protection, early detection screenings and timely treatments.

The easiest and most effective form of sun protection is wearing sun safe clothing that carries the Skin Cancer Foundation's Seal of Recommendation.

### What makes our clothing sun safe?

Clothing labeled with Ultraviolet Protection Factor (UPF), blocks harmful UVB and UVA rays from reaching your skin, providing needed sun protection.

Select products from the Callaway line are endorsed by the Skin Cancer Foundation for UPF sun protection featuring the same comfort, fit and style. These fabrics carry a UPF rating ranging from 30 to 50, offering very good protection, while 50+ provides excellent protection, blocking 98 percent of the sun's harmful rays.
